SATURDAY JUNE 11, 1892. Harrison's Victory Over Blaine. President Harrison easily won a victory over Mr. Blaink before the Minneapolis convention vesterday, and is therefore the candidate of the

ublican party for a second term. The defeat of Mr. BLAINE was overwhelmin or this high office fall so far short of the expectations and claims of his supporters. Never before did such willy and experienced leaders as those that championed his cause fall so signally an mustering forces for a fight.

In mustering forces for a fight.

This was the fourth time that Mr. BLAINE'S hame had been presented to party conventions for the presidential nomination, but it may be safely said that it will not be mentioned in this connection again. His political career is about ended. The circumstances attending this last pandidacy and the humiliating defeat following forbid the idea that he will include in furthe

His resigna-tion of the office of Secretary of State came too late, and many think that he was not loyal to his chief. All the States had elected delegates to the Minneapolis convention before he acted so decisively as to let his friends know that they might vote for him. He has now paid the penalty of his irresolution, and has lost In 1884 he get the nomination and was de-

So Mr. BLAINE is disposed of Again has his owered. To the country at large he would be a more acceptable President than Mr. Harnison; but it is idle to taik of this now. He never will be President; nor will Mr. Hannison, if re-elect-ed, invite him to a Cabinet position. Mr. Hannison is a sectional candidate of a sec-

lional party. He has never looked with any hard. favor upon the South, and in consequence the south has no great love for him. When we have it is no time for southern people to listen to arguments in favor of voting with the "Third From BLAINE we might have expected consideration; from Hamuson, judging the future by the past, we need expect non-Bo the lines must be drawn close and we must bil stand shoulder to shoulder.

Silver at Minneapolis.

The declaration of the Minneapolls convention ppon the silver question is one of the most brazen-faced attempts to deceive the people which have ever come to our knowledge. The Republican party, as a party, is a mere tool of monumetalists. That party has favored every financial scheme which promised to make the rich richer and the poor poorer. That party beongs to money-changers. It can at any time command from the oppressors of the people whatever rum of money it needs to carry out its ublicans. In a word, the party is the enemy

of the real people of the United States and the willing tool of the men who live by legalized paid the tribute of hypocrisy which it is said vice is always ready to pay to virtue, and declared in language intended to deceive the public that the Republican party favors bimetallism. What port of himetailant Why, the platform calls for silver dollars and paper dollars worth as much as the gold dollar: The miserable hypo-grice! They pretend to be in favor of silver dollars, but what Wall street understands, them to mean, and what they do mean, is that they do not want any silver dollars which do not contain pach of them silver of the value of 25 8-10

We showed the other day that Mr. Suzeman had advocated the commodity dollar when he was Secretary of the Treasury (in 1880). He is to-day the spokesman of the Republican party on all money questions. When he speaks he speaks for the Republican party. He has time speaks for the Republican party. He has time and again declared that he is in favor of the commodity dollar. Yet the hypocrites at Minneapelis bow down and worship sliver, though in their hearts they and the party they represent always worship at the shrino of gold. Their declaration on the money question ought to condemn them in the opinion of all good men, and especially in the opinion of everyhody who holds together the property above thatty, candor above doublets. country above party, candor above duplicity, and honesty above such tricks as are exempli-

fied in the make-up of the Minneapolis plat-What a spectacle! Goldites masquerading in the dress of friends and advocates of bimetallism? We favor, quoth they, good silver dollars, good gold deliars, good paper dollars. In a word, they favor monometallism whenever they speak their real sentiments and bimetallism when they would deceive, mislead, oppress, and rob the Republican masses. Away with the hypocrites.

Rural Free-Delivery.

Rural Free-Delivery.

We might but do not protest against the attempt of the Republican National Convention to steal our free-delivery thunder. For years we have pressed a larger free-delivery upon the attention of Congress. Repeatedly have we claimed to be the originator of the measure so far as the small towns in this country are concerned; and never, so far as we know, has anybody denied the justice of our claim. Now here come the Rinnespells conventionities and de-

lare in the Republican platform that they are in favor of rural free-delivery! We take off our hat to acknowledge the magnitude of such a compliment, and congratulate the people of the rural districts that they are likely ere long to joy the benefits of the free delivery of mal atter. So that the good work goes on we shall not complain. We are not working for ourselve when we work for and advocate progressive measures. We seek only the people's good.

Minneapolis convention includes, perhaps, country districts, which we did not include in our or ginal proposition; but it is still true that our or-ginal proposition; but it is still true that ours is the credit for the proposed extension of free-de-livery to people who had never so much as heard of the proposition nor a kindred one until we Judge Hughes-Again-

We called attention the other day to the strong points which Judge littories had made in his last efter to the Disparcy, and especially to his conention that gold had increased in purchast minodity. Pressing this contention, the Judge

Thousands and thousands of men have been slowed by "the great fraud of 1873." Thousands of the same men did not know what ed them. It was the demonetization enabled by the vast field of taxation which is ecuples to preserve its own credit and keep its ottes and bonds at or above par. The interest in the national bonds is payable in a metal too rections to be bandled by the masses. Under the operation of the legislation of the Republi-na party the Federal Government owes more w than it did twenty-old years ago, althoug t has paid to its creditors more than a thousand millions of dollars. That is to say, it would retire more pounds of cotton, tobacco, wheat, or orn to pay the remainder of the national deb han it would have taken before the great frau

Why, asks Judge licenes in effect, why is dishonest to coin the seventy-five cent silve dollar when the bullion in that deliar will pur hase as much wheat as it would have purchased venty-old years ago?

All these are questions which ought to be well considered in the grand national conclave of the Democratic party which is to assemble on the 21st. If we are ready to stand by silver, let the Democratic National Convention say so. If we make known our determination to have a plat form upon which we can stand. The Republi cans are building all their hopes of deceiving the people in regard to the silver question upon the proposed international bimetallic contenence and upon the brazen impodence of the Minne apolis platform. THE COTTON CROP. Existing Conditions-State Averages-The Reduction of Acreage.

(By telegraph to the Dispatch.)
Washington, D. C., June 10.—The returns of
the statistical correspondents of the Department

correspondents of the Atlantic section report a poor stand.

The average condition of cotton, in the consoit-dation of the reports, is 85.9. This is the lowest average, with one exception, since 1874. The State averages with one exception, since 1874. The State averages are as follows: Virginia, 79: North Carolina, 89; South Carolina, 61; Georgia, 87; Florida, 89; Albanica, 91; Mississippi, 91; Louisiana, 89; Texas, 81; Arkaneas, 70 and Tennessee, 90.

The reduction of area from floods resulting from river overflows, especially of the Mississippi and its tributaries, has been heavy.

The acreage of cotton has been materially reduced. On the 1st of May, while planting was progressing, our correspondents reported an intention to reduce the acreage 18.6 per cent. The present report of completed acreage makes the reduction 16.5 per cent. The State percentages of last year, are as follows: Virginia, 73; North Carolina, 74; South Carolina, 84; Georgia, 84; Florida, 81; Albanica, 84; Georgia, 84; Florida, 81; Albanica, 84; Georgia, 84; Florida, 81; Albanica, 84; Blasissippi, 85; Louisiana, 80; Texas, 85; Arkanicas, 82; Tennessee, 83—average 53.5.
